Controllers

Lift controllers and connected lifts

EN 81-20 and EN 81-50 | CAN-bus | Pre-wired, ready to install | Remote connection

The controller is the heart of the lift: it controls the machine, the doors, the signalling and all safety devices. We work with our Sodimas range and with Edel, our preferred partner, and with their connected solutions.

Lift controllers and connected lifts

The controller is the heart of the lift: it controls the machine, the doors, the signalling and all safety devices. We work with our Sodimas range and with Edel, our preferred partner, and with their connected solutions.

Sodimas QI Touch

Controller from the Sodimas range, compliant with EN 81-20 and EN 81-50. Colour touch screen with built-in help, multitasking system, CAN bus and hard-wired connections in the car and on the landings, pre-wired “Quick Install” installation. Developed with an open protocol: any maintenance company can service the lift.

SODIMAS RANGE

QI Touch

- Colour touch screen
- CAN-bus and wired
- Pre-wired Quick Install
- Open protocol

Edel Advanced K2

Controller and pre-assembled “Plug & Play” electrical installation, for EN 81-20 and EN 81-50. A single main board for every type of lift, CAN bus communication with all components, Ziehl-Abegg drives. The K2 series is also designed for modernisation.

EDEL · SPAIN

Advanced K2

- Pre-assembled Plug & Play
- A single main board
- CAN-bus
- Ziehl-Abegg drive

The connected lift

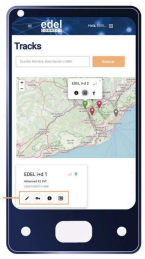

Monitor the lift remotely, get alerted before a breakdown strands users and respond faster: both manufacturers offer their own solution.

SODIMAS

Pilote

- Optional, for QI Touch or multi-brand
- Plug and play remote monitoring, set up by QR code
- Cloud hosted in Europe, ISO 27001 certified
- Alerts, statistics and predictive maintenance
- Call the lift from a smartphone

EDEL

Edelconnect

- Online platform, computer or phone
- Real-time breakdown alerts
- Remote console: settings, reset
- Fault history and map location
