Floor	PVC

Options

- All finishes from the Sodimas car colours documentation (floors in Laminam only)
- Full-height column and every Bluestyle car operating panel, surface mounted
- Bluestyle landing operating panels, surface mounted

SODIMAS CARS

Why these two cars

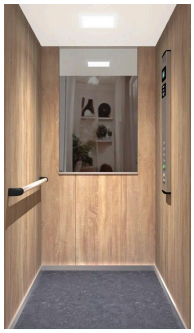

We deliberately limit our offer to the cars designed for the lifts we supply as standard: you choose a proven design, delivered with the lift, with no custom adaptation to validate.

Skincolor

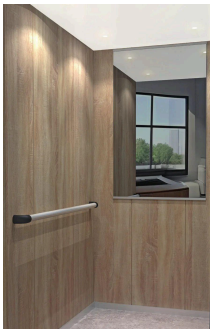

Car for the Medium range and ALPHA Motion, also available on HYBRID. Plain or two-tone skinplate panels, a warm, contemporary feel.

HYBRID stainless car

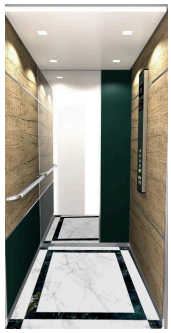

Standard car of the HYBRID, our export-only lift: tough brushed stainless steel, easy to maintain, ideal for residential and office buildings.

Skincolor light oak DL115, PVC floor

Half-height mirror, 800 mm wide

Optional finishes (Sodimas car colours)

Stainless-look handrail, black ends

Design your car online

The graphic configurator of the Sodimas range lets you preview finishes, floors and operating panels before sending us your choice.
